**NOTICE**

**Regarding Conclusion of the Provincial People's Committee in the meeting on  
reporting the project of Establishment of Centre for Marine and Lagoon Science of  
Thua Thien Hue Province**

The meeting on reporting project for Establishment of Centre for Marine and Lagoon Science of Thua Thien Hue lagoon (hereby named the project) was convened by Mr. Nguyen Van Cao on May 30, 2008 at PPC office.

The meeting attendants are representative from provincial departments: Department of Natural Resources and Environment (DONRE), Department of Science and Technology (DOST), Department of Internal Affairs (DIA), Department of Agriculture and Rural Development (DARD). After being reported by DONRE on the project draft and feedback received from meeting participants, the Vice Chairman made the following conclusions:

1. Many thematic studies have been conducted in the recent time, but the database of provincial marine and lagoon is still insufficient and inconsistent. So as to provide database and basis for developing socio-economic development strategies and policies of the province, there is a high need for deeper, more careful and more systematical studies.

2. It is agreed upon formulation of working group on establishment of the project; DONRE is delegated to facilitate this process in collaboration with DOST, DARD, DIA, and Hue University.

3. DONRE will develop budget and plan for the project with reference to DoF, DPI and submit to the PPC for decision making.

4. The following issues should be taken into consideration when the project is developed.

- Assess status and limitations of marine and lagoon; the necessity for the research center set up is also should be carefully taken into account.
- Study roles, positions of the centre, limit areas and scope of research
- Regularly follow up and update relevant information from national agencies, ministries to build up proper functions for the centre.
- Other noteworthy ideas from meeting attendants

*The notice has been reviewed and endorsed by the Vice Chairman of PPC, the PPC would like to inform for relevant agencies implementation.*
